PROFESSIONAL SUMMARY

AI Image Tutor and visual content specialist with a background in graphic design, 3D production, webtoon creation, and generative AI workflows. Experienced in teaching AI systems how to create better images through structured feedback, visual critique, prompt design, and production-ready evaluation. Hands-on experience with Stable Diffusion, ComfyUI, LoRA, OpenPose, PixAI, Midjourney, NanoBanana, and GPT Image.

SELECTED HIGHLIGHTS

- Worked as an Image Tutor and Prompt Tutor in AI content production environments, improving output quality through critique and iterative feedback.
- Designed the official representative mascot character for Ewha Womans University after winning a competition among 81 teams.
- Contributed to Homo Plastikos, an AI-assisted webtoon officially serialized on Manta.
- Created and sold 3D assets to 716 creators; assets appeared in well-known webtoons including Lore Olympus and The Remarried Empress.
- Built 5 successful crowdfunding projects.

CREATOR PRESENCE

- Official verified creator on POSTYPE (@smyth-studio) for AI image and AI chat game creation.
- Creator on Crack by WRTN under the nickname “치즈달,” with 1,000+ followers.
- The work “화내지 마세요 작가님” recorded 112.2K+ conversations and was selected as a Crack Original.

PROFESSIONAL EXPERIENCE

WRTN Technologies

Product Manager / AI Content Quality Tutor

📍 Seoul, South Korea | 📅 Sep 2025 – Present

- Joined Crack, an AI text game platform, and later worked with the Studio Team on a large-scale AI content production pipeline.
- Reviewed and taught AI outputs across both image quality and prompt quality so that results could reach or exceed human-created quality standards.
- Worked as an Image Tutor and Prompt Tutor, providing iterative critique, quality control, and improvement feedback.
- Used ComfyUI, Stable Diffusion, PixAI, Midjourney, NanoBanana, and GPT Image in production and evaluation workflows.
- Also contributed to product planning related to home personalization, adult-tab separation, and search improvement.

Lucidlab

PM, Head of Planning & Operations

📍 Seoul, South Korea | 📅 Feb 2025 – Aug 2025

- Led end-to-end product planning and operations for the paid private messaging service “Private Chat.”
- Planned the LLM-based interactive game “Talktory,” from concept and IA to UX flow, QA, and launch preparation.
- Drove metrics-based iteration, BM design, IR materials, TIPS performance-testing documents, and patent-claim drafting.
- The Talktory project won the Grand Prize at the Seongnam Startup Competition.

RIDIplay

Product Manager, Agraba

📍 Seoul, South Korea | 📅 Aug 2023 – Mar 2024

- Led product planning for Agraba, a Stable Diffusion-based generative AI illustration tool for webtoon production.
- Collaborated with AI R&D, design, and QA teams to define functions, workflows, and production usability.
- Created and tested webtoon-generation workflows using Stable Diffusion, LoRA, and OpenPose.
- Contributed to Homo Plastikos, an AI-assisted webtoon that was officially serialized and completed on Manta.
- Helped translate storyboard intent into AI-assisted image generation pipelines suitable for production.

ADDITIONAL EXPERIENCE, EDUCATION & CREDENTIALS

EDUCATION

Ewha Womans University

BFA, Visual Communication Design

Seoul, South Korea

- Designed the university's official representative mascot character after winning a design competition among 81 teams.

AWARDS & CERTIFICATIONS

- Grand Prize, 7th Ewha Public Relations Idea Contest
- OPIc IH — English
- JLPT N2 — Japanese

ADDITIONAL TOOLS

Figma, Adobe Photoshop, Adobe Illustrator, Notion, Slack, JIRA, Excel, PowerPoint

RIDI — Team Lead, Content Production R&D / 3D / Background Team

Seoul, South Korea | May 2021 – Nov 2022

- Built and managed three new teams: Background Team, 3D Team, and Content Production R&D Team.
- Improved background-team productivity by 230% and reduced planned headcount growth by 60%.
- Built a shared archive of 1,008 resources; when applied to the coloring team, work speed improved by more than 40%.
- Planned and managed a 3D character system to reduce serialization risk and preserve visual consistency when key artists were unavailable.
- Led the group's first internship program; two-thirds of interns reached production-ready performance and completed real projects with A-level results.

HABA — Independent 3D Asset Creator & Seller

South Korea | Jan 2019 – Dec 2024

- Planned, created, and sold 3D object assets for webtoon, game, and animation production.
- Sold assets to 716 creators and surpassed KRW 100 million in cumulative sales.
- Successfully completed 5 crowdfunding projects.
- Assets appeared in well-known webtoons including Lore Olympus and The Remarried Empress.
- Maintained "Best Brand" recognition on the platform for five consecutive years.
